

## My Two Thanks

In this piece I will tell you three things that I am thankful for, and why. In class we have dug deep and chose three more things that we are mostly thankful for. I chose Lisa, and slippers.

In my life I have one special person she is like a sister to me or maybe a mom, her name is Lisa my most favorite cousin along her sister. Whenever we go some where everybody always asks us if we are sisters? And when they ask that I really do feel like her sister. The reason I love her so much is because I see her the most. I am with her the most and love her the most. She is a mom to me because she is always there for me just like my mom. Whenever my mom goes out Lisa plays the role of her to me. Lisa is basically another role model to me. She is 17 and, just like me I can relate to her so much. Lisa is with the most loveable person you could ever meet. That's why I am thankful for Lisa.

I am thankful for my bunny Slippers too. She is the most adorable bunny you will ever meet. Slippers brings joy to our family. To me she is another human in our family. She listens (most of the time). She doesn't bite. However she sure loves food. I am mostly thankful for how much she loves me. Times when I am stuck and she is hopping around the house she lays under my feet and gives me the best ideas ever! That is why I am thankful for slippers.

Those are things that I am thankful for. From now on at night I an going to say what I am thankful for and thank everyone that gives me these thanks . What are you thankful for?
