Ms. Miller

Thankful Essay

I am thankful for many wonderful things; here are just a few of them. The few things I'm going to talk about are family, and activities. I don't know what I would do without these things. I love my family so much, and I like activities like sports. That is what's important to me.

My family is very important to my life. They are because they love me and take me places. They are also important because they take care of me by taking me to the doctor. I am also thankful that they buy me things like clothes, and games. I am also thankful that they are all healthy. I am lucky that I have the type of family that gets together a lot. I am also happy that I can go to my grandpa and grandma's whenever I want. I love my family very much.

Activities like sports are very important to me. I have played baseball for 5 years and I like it a-lot. I have only played basketball for 1 year, but, I also like it a lot. I am lucky that my mom and dad sign me up for sports. I am very thankful for that. I play CYO basketball for St. Jerome's. I also play little league baseball for East Rochester. I am also lucky that my dad signs me up for the Frozen Ropes training center for baseball. I am very lucky for activities

When I think about if I never had family, and activities, I think I would be lost. Once again, I love my family very much, and I like activities like sports. I don't know what I would do without them.
