

Micaela's Thankful!

I am thankful for many things. But, to narrow them down, I will tell you, the reader, three things that I am thankful for.

Firstly, I'm thankful for my little sister, Daniela. Together we have laughs, smiles and fun. She is as sweet as candy and as happy as a clam. Even though she is only one year old, Daniela is my best friend.

Next, I'm thankful for my education. That's because I want to be smart. Another reason is because school, in my view is really fun. For example, once I made a math poster, in my opinion that was fun. Lastly, when I grow up I want to go to a great college and to do that I need to work hard and be smart.

The last thing I am thankful for is being an American. One reason is because I like our way of making laws. Even though it's quit a long process, we vote, that's what I like about it. Also, I love how we are free. This is not a monarchy nor dictatorship, this is America!

Now you, the reader, may see that I am thankful for my little sister, Daniela, my education and last but not leased, being an American.
