

## I am Thankful for This Year

This year I am very thankful for my family and my education. My brother, my dad, and my mom are important this year because they have been helping out during a difficult time. Another thing I am very thankful for is my education. My grades are great and I love to learn.

Over the last year I have been thankful for my family. I am thankful for my brother because I am able to talk to him about bullies. I'm thankful for my dad working to provide food. I am thankful for my mom because she is working on being healthier, so she can do things with me and my sister.

This year, I realized how important education is. I want to be a marine biologist and science will help me. I am thankful I get to work on reading and writing in ELA. I like physical education because I am learning to swim better. I am thankful that I get to learn a little about my culture in Social Studies.

This year has been a magnificent time for me, my family as well as my education. My family is helping each other and my grades are good. **I AM VERY GRATEFUL!**
