

I'm thankful having good health, also having a great family. I'm thankful for those things this year.

I am thankful for my family because I love them and they take me places. For example they took me Disney World and I was really excited. Also my family is nice and thoughtful. They are nice and thoughtful because they give me gifts for my birthday, Christmas, etc. My family is also caring. When I'm sick my grandma and my other relatives will make me soup. My parents will give me medicine and other stuff to make me feel better.

I'm thankful for my health because I have good health and I've never had a really bad sickness. My health is good because I have no parts of my body that don't work. I can see, walk, hear, and talk. I am thankful for my health because I have nice doctors. I've never had a really bad flu or anything because I get flu shots. When I'm not ready for a shot or other things yet, they will wait patiently till I am.

I am so happy that I have good health, and having a great family. That's what I'm thankful for this year!
