Ela  
Mrs. Walsh

There are many things that I am thankful for like my family and friends. I am grateful for the things my family and friends have done for me this year. If it were not for my friends and family, my life would be worthless.

I am thankful for having my family because my dad makes my most favorite dishes in the world! My mom and me like to hangout and do lots of activities and go to different places. My brother and I like to play together we like to play games and most of all he helps me a lot.

I'm thankful for Rylee because he helps me with my problems. I'm thankful for Jack because he likes to be my friend every day. I'm thankful for Grace because she likes to talk to me when I am lonely.

I have a lot to be thankful for this year. My family and friends mean a lot to me. I am so glad they are in my life.
