Ms. Miller

Is there a friend or someone in your family who you wish was with you 24/7? Well I do and their names are Tanya and Nina and if you want to learn more about why I'm thankful for them keep on reading.

Nina is an awesome friend and I'm glad she's mine. I'm thankful for Nina because she's always there for me when I'm sad. I'm so happy she's my friend because if she wasn't I wouldn't be doing a lot of the things I do today. Nina is also very funny so when I'm sad she can always cheer me up.

Tanya is my favorite cousin and I'm thankful that she's in my life. Tanya is nice to talk to because she gives good advice. I love that she is always willing to do something fun with me. She has always been like my best friend the one who is always on your side.

I have now learned without Nina and Tanya I could have a whole different personality. Now that I have realized how important they are to me I want to make sure everyone knows that they are. If you need to have someone make you the happiest person ever you need Nina and Tanya.
