What I am Thankful For

The first thing I am thankful for are the Armed Forces. They are the most courageous men and women I know. They help protect our country, America. We are thankful for these brave people and keep them in our prayers.

Another thing I am thankful for is my house. Not all people have houses. We have cool houses in the summer and cozy houses in the winter. We have a backyard to play in and a place to sleep. That is another thing that I am thankful for.
