

William Gaylord

At this time of year I am thankful for many things. First off, I am thankful that I always have enough to eat. Adding onto this is that I am fortunate enough that I may eat a variety of food and not the same thing over and over again. I know that some people must go without eating for days at a time because of a lack of money. Next, I appreciate that I am fortunate to live in a house. It keeps me warm in the winter, keeps me dry when it rains and is a safest place for me to be in. It also has electricity so that my house is light and we can clearly see. If I did not have a house, would I still be alive? Next, I am thankful that I have the privilege to play sports. Even if the coach is screaming, "Go get the ball!" or, "Hurry, Hurry get the ball. "I know that some kids do not even get a chance to have fun and play. Money to play the sports is paid for through my parent's money, and this goes on to the next thing that I am thankful for which is for my family. Lastly, I am thankful for my friends and family. My brothers, sisters and friends always stick up for me and play games with me. Also, if I am feeling badly about something my siblings and friends always make me feel better. My parents do so much for me and help me with anything I ask for. Clothes that I wear, food that I eat and the house expenses are all paid for through my mom and dad's money from work. At this time of year I am thankful for many things because I know that I am very fortunate for everything that I have.
