Thanksgiving Assignment

FCA's

1. Organization: Interesting topic and concluding sentences.
2. Word Choice: At least three transition words and highlight.
3. Idea and Content: Three things that you're thankful for with two supporting details

At this time of year I'm thankful for good food, a nice house and a family. When my mom or dad makes the food and when sitting down to eat, I'm thankful that we have this good food. **First**, some families don't have the money to buy nice food like turkey or the ingredients to make stuffing. Yum! A **second** thing I am thankful for is a nice house. My dad is the only one who works and he has to pay for everything like heating or water. When he does that he doesn't have a lot of money left to spend on other places, like food or haircuts. **Finally**, the last thing that I'm thankful for is a family. Some people live in an orphanage or a homeless center and never get adopted. My family is nice even though we argue a lot. The reason I'm thankful for a family is because when I have a lacrosse or basketball game/practice they take me over and also we play around. Thanksgiving isn't a random holiday that you

eat turkey, It's a time to be thankful for what other people do for you
and how luck you are.
