

Morgan LiVecchi

At this time of year, I am thankful for friends, family and much much more.

When everyone can make it here's what we do

We spend time with each other and share things to.

The things we share are when we're going on another family vacation

Or when we are going to have another celebration.

The best part of all is when we eat

Mash potatoes stuffing and yummy turkey meat.

I'm thankful for the food we eat and the table we eat on

Because it looks so nice when we sit upon.

One of our family traditions is to play a game

My favorite is when we play judge and you have to guess the person's name.

Our family is quite different but were a lot of fun

So if you ever meet be prepared to laugh a ton.

We watch old family movies

Like the one time they went to get smoothies.

Sometimes we do arts and crafts

But the fun never lasts.

At the end of the night when it's all over

I'm thankful for the lord looking over my shoulder.
