

## What I'm Thankful For

What are you thankful for and why? I am thankful for God for gathering my family at Thanksgiving. I am thankful for this because we can get together and pray for one another for all the things we are lucky to have.

I am thankful for my family because they love me a lot. They are great because I am nice to them and they are nice to me to. They care about me and I care about them a lot to. They give me good stuff and make sure I have the things I need. I am thankful for my teacher for helping me with my writing.
