

Thanksgiving Story

What are you thankful for? I'm very thankful for my family. I think it is important to be thankful because everything that you are thankful for is what you love. Every one around you is thankful for something so take some time to be thankful for your family. They are the people who help us out when we have a problem.

I'm thankful for my home because it gives me shelter. My family and my sister Peyton are wonderful and I'm thankful for them. I love everything and everyone that I'm thankful for. Remember to be thankful for the family and things in your life!
