

What I'm Thankful For

I am thankful for having family, friends, and a place to live. I am thankful for having a family because they care for me, they encourage me, and they are the only people I can really trust. I am thankful for having friends because if there was anything wrong they would be there for me. They would never judge me, and they are the only people that I can have fun with at school. I am thankful for having a home because it gives me a place to sleep, to eat, it gives me protection, and it gives me a place to talk with my family.
