

# What am I thankful for this year?

---

What I am thankful for this year is that I have a loving family. They take very good care of me. For example, they give me clothes for school. Another example is that they give me a nice house to live in. Also, they gave me a very nice school so I can learn. I have a lot of friends at school. Another reason why I am thankful is that they give me food to eat when I am hungry. For example, they give me beans, rice, chicken, eggs, smoke turkey neck bone, lettuce, and Frosted Flakes. They give me healthy meals. I am thankful that my Dad loves me and so do all of my grandparents. One more reason I am thankful this year is that all of my family educates me by letting me read books and practice my multiplication. These are the reasons that I am thankful this year. I am so thankful that my family loves me.
