WHAT I AM THANKFUL FOR 😊

I am thankful for my mom and dad's help that I can't get through without. I am thankful for my family and friends.

I am thankful for clothes, food, and a home to stay in with my family. I am thankful for having a good teacher who gives me a good education. I am thankful for getting presents every holiday, and especially on my birthday. I am thankful for books, shoes, and people who take care of me. I am thankful for my pet dog that I got for my birthday. She is a husky and her name is Jenthdea. I am thankful for living in the best country and having a loving family.

What I am really thankful for is my parents, sisters, cousins, and my whole family because we love one another very much. And I hope everyone is thankful for having a loving family, a good education, having friends, and people who care for you. 😊 What I am really thankful for is that I am safe and have a home and the right people to live with. What I have to say to people is you should be proud of yourself for giving and succeeding in life, and you should be thankful for being surrounded by people who love each other very much. God bless America!
