

# I'm Thankful

for.....

By Mackenzie Collins

What do you think when someone says "Thankful for"? Your house, food, money, family, I bet you don't think kindness of others but I think of it. If nobody was kind it would be terrible because everyone would be mean to each other. But maybe you don't care maybe you're not thankful for that but I am.

You probably know what thankful for means but if you don't it means happy for what you have. I am thankful for the kindness of my friends and family because if they weren't I would be angry because I show kindness to them and they should show it back. But that didn't happen because they do show kindness.
