Lots Of Things In My Life

When I was born I already knew

That I had a caring family and that is true

Lola is my dog she came when I was six

Now I'm the lucky one feeding her trail mix

My Great Grandma makes a special yummy surprise

That makes me say, "There go my thighs"

I love the Plants that she grows in my living room

And how she keeps things tidy sweeping with her broom

The Mets are my favorite team

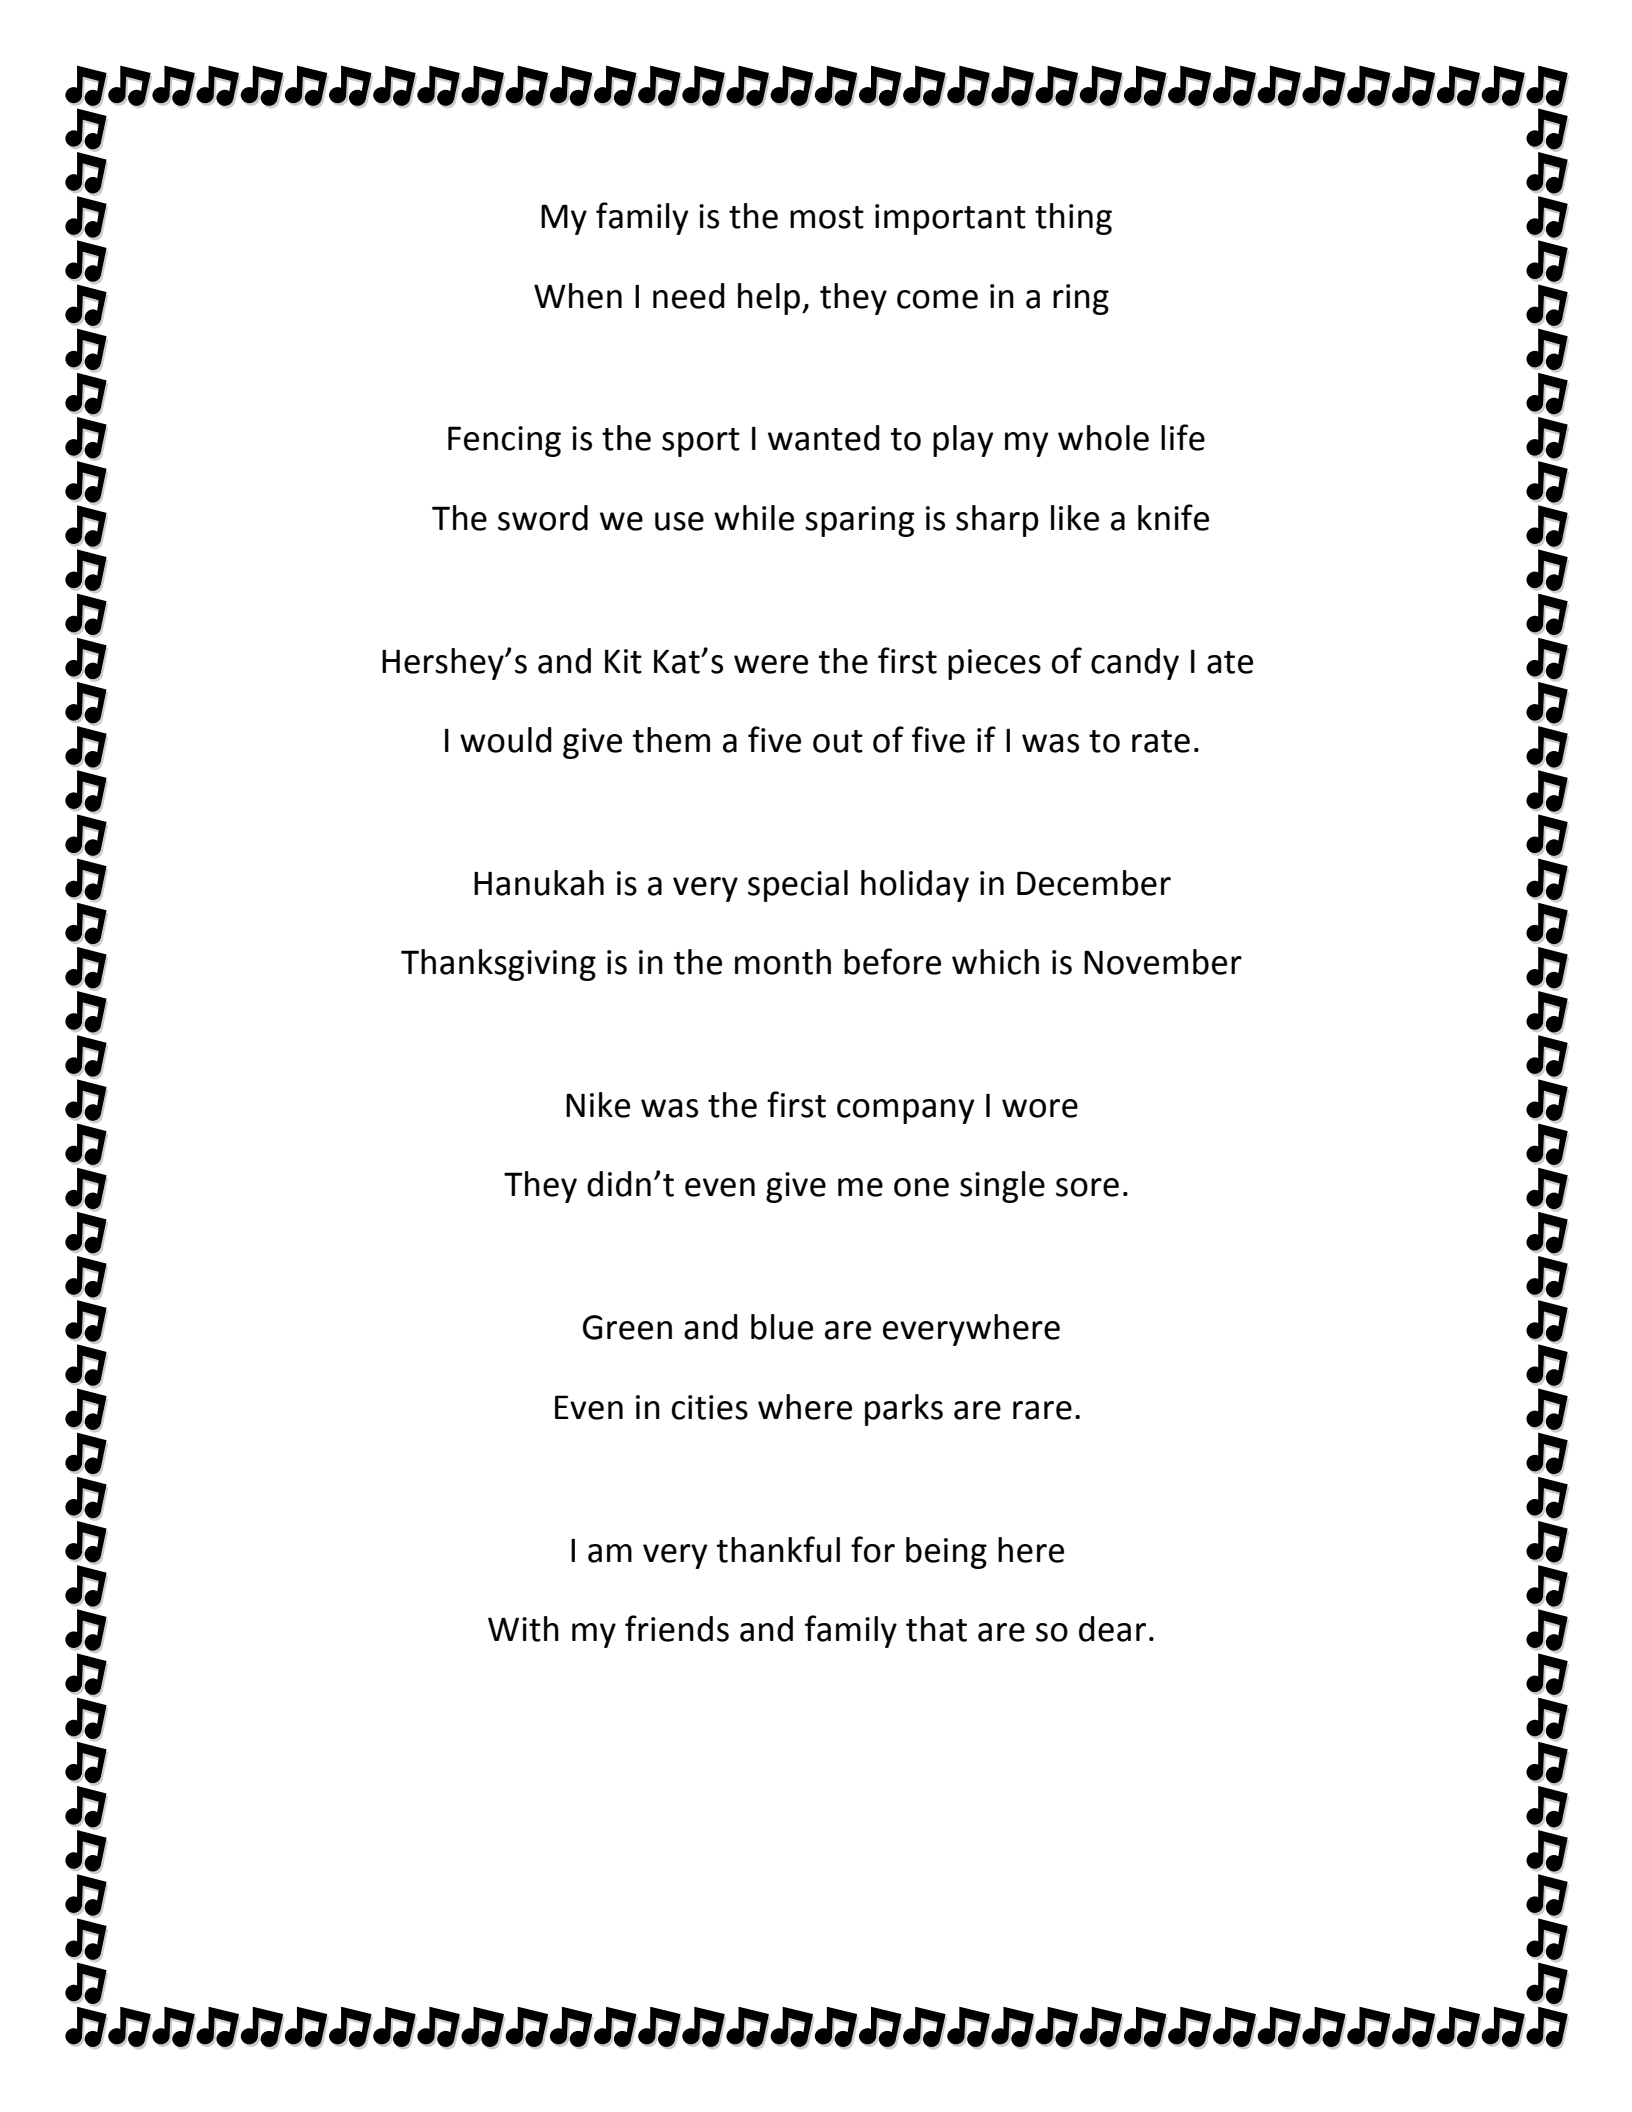

For them to win that is my dream

Teletubbies and Dr. Suess

Were the ones who inspired me to chocolate mousse

Snow is my favorite weather

That is why I go snow shoveling forever

My family is the most important thing

When I need help, they come in a ring

Fencing is the sport I wanted to play my whole life

The sword we use while sparing is sharp like a knife

Hershey's and Kit Kat's were the first pieces of candy I ate

I would give them a five out of five if I was to rate.

Hanukah is a very special holiday in December

Thanksgiving is in the month before which is November

Nike was the first company I wore

They didn't even give me one single sore.

Green and blue are everywhere

Even in cities where parks are rare.

I am very thankful for being here

With my friends and family that are so dear.
