

Thanksgiving story

What are you thankful for? Well you should be thankful of something. It is almost Thanksgiving.

I am thankful for my mom because she makes dinner for me and she makes the best cookies with me. I am thankful for my Dad when he helps me with my homework. I am also thankful for food and water because it gives me energy. I love toys, it gives me something to do and they are things I can use to enjoy. The last thing I am thankful for is money so I can buy anything in the world when I need it.
