### I Am Thankful for...

This year I am thank for my fifth grade teacher Ms. El and my cluster teachers who deal with me and who help me with my work. I like to learn and to do homework because I like to explore the new things that are coming. I want better grades and I just want to be a better person. I want to get into a better junior high, high school and college. Therefore I am thankful for the effort everyone makes for me.

I am thankful for Ms. Newton, who teaches dance, and the shows we do at school.

I am thankful we are selling chocolate with my computer teacher. We are helping to raise money for the graduating class and for our senior trip.

This year I am going to have a nice Thanksgiving because my family from Washington, D.C. is visiting us in New York. I am thankful for their arrival.

I am thankful for Christmas because everyone gets presents and people get to spend time with their families. There is a lot of joy. I am thankful there is a person like Santa Joe Raab who comes to our school to give the little kids gifts. They get what they want from him.

I am thankful for the moments in our lives.
