

Christopher Visintin

My family is what I am most thankful for this time of year. I am thankful for my family because my mom and dad take me to my football and lacrosse games. They buy me food , water and clothes like when my mom took me to Lacrosse Unlimed and got me a pair of shorts that I really liked.

They take care of me when I am sick. One time when I had a 104 fever and my mom and dad gave me medosin. They get me blakets. They take me to the doctor.

They make me lunch and dinner for me. They take me on vacations. In November my mom and dad took my family to Disney World. They take me to school. They take me to my friends houses to play. This is why I am thankful for my family.
