What I am thankful for

11-27-11

I am thankful for many things in this world. I am thankful for my family because they care for me when I am sick. My family teaches me important lessons in life. They cheer me up when I am sad. Also they love me and play games with me.

I am thankful for the food we have. Food gives us energy to get through the day. It gives me nutrients that I need to be healthy. Also in some places people do not have enough food for everybody.

I am thankful for my home. My home gives my family and me a good place to live. Many people do not have a home. It keeps my family and I dry when it rains or snows. Another reason is when I am in my home it makes me feel very safe.

I am thankful for trees. I am thankful for trees because they make oxygen from carbon dioxide so we can breathe. Trees make wood so we can build homes and other buildings. They make paper and without paper we would not have any books.

I am thankful for living in America. I am thankful for living in America because we have freedom. I can follow any religion that I choose. Also if someone is willing to work hard they can have any job that they want.

I am thankful for school. School's let children get a good education and be able to get a job when they are older. I can meet new friends at school. In some countries girls are not allowed to go to school. Also I can try out new activities at school. These are only some of the many things in this world that I am very thankful for.
