

# What am I thankful for?

I am thankful for my family my daddy, mommy, my sisters Marisa, Samantha, Alexandra, my brother Nicholas, my aunts, my uncles, my grandpas, and my grandmas because if I did not have any of them I would be lonely. I am also thankful for my house because if I did not have my house then I would be living n the streets and if there was a storm I would be cold, wet, and sick. I am thankful for food and any kind of drinks because other people are starving for food and thirsty for any drinks. I am thankful for doctors and all of the people who work in the medical fields because they help you when you are sick and if you get hurt really bad. I am thankful for not being in a hospital because it means that I don't have any bad diseases. I am also thankful for playing outside. The two most things that I am thankful for is my country because I have freedom and I can say anything that I want to about the government because some countries can't say anything that they want to. The last thing that I am thankful for is my life because some places around the world get sick by bad diseases and die. I am happy that I do not have it in my state. So that is what I am thankful for this year.
