

# I am thankful for.....

I'm thankful for many things: pizza, pasta the whole entire thing. I'm not only thankful for food. I'm also thankful for other things too.

One thing I'm thankful for is my family. Family is something really good to have. Family helps with homework, daily activities, takes care of me, and someone to love.

Something else I'm thankful for are friends. Friends aren't they wonderful. They help you and look out for you. I love friends!

One other thing I'm thankful for is water and shelter. I'm thankful for water because without it we all wouldn't be living. Shelter gives you a roof to sleep and live under so you can be protected from rain and danger.

You should always be thankful for what you have because there are people in the world that are not as fortunate.
