

I am thankful for my loving family. They've always been there for me. I have a mom, a dad, and an older brother. I have two dogs, a rabbit and four fish.

When I'm sick or not feeling well my family helps me feel better. They also give me a home, food, clothes, and love. My brother and I sometimes fight but I still love him.

I love my family because they help me in different ways. My brother helps me with my homework. My dad teaches me how to play guitar. My mom teaches me how to cook sometimes I help cook dinner. I also love my pets. There so fun to play with. I am thankful for my family and my pets.
