

What I am Thankful for This Year Essay

Written by: Devon Keehne

R & E May School

I am thankful for coloring and helping out my teachers I really love to do both of those things. I really like classroom store because I like to be able to get prizes with my star bucks and I really like the school store as well.

I do not like when I forget to do my OT sessions with Mr. Jason because I am so thankful for him and all my teachers.

I really like to do all the things I do like going to O.T., helping my teachers, taking care of myself and doing lanyard. I like to swing on the swing and watching movies. Also I love listening to my new portable radio.

In health and fitness, I am thankful to be learning about the stages of growth and how to be a better problem-solver as I get older. I have been learning to read about lots of things including plants. That is my favorite. I am thankful to have become a better reader read and write everyday because that makes me a better reader and writer.

In science, I am learning about plants. I like learning about plants. Like people, they have to have food from the soil, air, sun, and water to grow and stay alive. My teacher gave me an aloe plant. I planted it in a small pot. I'm supposed to water it every other day and sometimes I forget to water my plant. I have been taking care of my plant as much as I can. In social studies, I am thankful to learn about my continents and my country, and my state of New York.

In New York, I learned about the climate, regions, and types of precipitation. I have been learning about all the bodies of water that cover the Earth. I am thankful for learning about that. I

This year, I am thankful for learning science and learning math. I really enjoy learning new ideas. I also like Occupational Therapy. School means a lot to me. I go to school far away from my home. I have not lived with my family in over a year. I see them sometimes on the weekends for visits, and it can be tough sometimes. I have done really well living at Copson House. I do a good job on following rules, and completing my routines. I have made some friends, and I like many of my staff. I take medications and my doctor is thinking about making some changes so I will not worry so much about things. Sometimes I have bad dreams at night because I worry so much. I curse sometimes in my sleep. I do not mean too. I guess I am just angry about things that have happened in my life. But, I am trying very hard every day in school to be safe, respectful, and responsible. I am so thankful for my health and fitness.
