

What Are You Thankful For...?

I'm thankful that
My family's not poor. Also that
That I go to school. (But I kind of want a pool.)
I'm thankful for tools to build homes or
A pencil to make poems!
Plus electricity or else the world
Would be misty mash.
Most importantly food
If there was no food I'd be in a bad mood
The thing that really matters is friends and
Family because they entertain me and make money so
I can live a happy life.
