

## Being Thankful

*I thankful for a lot of things like my family, God, and my life. Thankful means you are grateful for what you got and happy to. The reason I'm thankful for my family is because they help me and support me and help me (and because I love them), another one is the reason I'm thankful for God is because he made me and he gave me my life, and one more thing I'm really thankful for is my life because if I wasn't alive right now I don't know I just wont be alive. Are you thankful?*

Happy Thanksgiving
