I am thankful for my family because they do good things for me and they love me. They take me fishing and to my soccer games. They taught me how to play soccer and put me on a team.

I am thankful for school because if there was no school we would not be smart. School is important.

I am thankful for my parents. They make sure I am safe and healthy. When I get hurt my parents check on me. They make sure I am ok.

I am thankful for my clothes because if I never had clothes I would be cold in the winter. I am thankful for my clothes because there are many people who are starving and have no money to buy food.

I am thankful for food, family, clothing, and school.
