### What I am Thankful For

I am thankful for my home because of the warmth, heat and food. My brother always likes to play with me. My parents are nice and friendly. I live in a house made of wood. My bedroom is nice and neat.

My parents feed me healthy and nutritious food. My parents are nice and they give me toys so I could play with them. They make sure that I am warm. They also buy me clothes so I can be warm and look nice. My clothes keep me warm and comfy. My mom is always buying me warm clothes so I would not catch a cold. They buy me shoes and socks so I would not have to walk around on the cold floor. They also buy me jewelry so I can look nice and pretty for school. Food keeps me healthy and strong. I eat healthy food so I will grow up nice and strong. My mom always packs my lunch so I would not be hungry. Sometimes my mom gives me money so I can buy lunch at school.

In my school we learn lessons and we have the coolest teacher ever which is...Ms. Ellis We learn English and we also do a lot of writing. We learn math with Mrs. Finnegan. Ms. Ellis separates us into groups for math. I am in group three. We learn a lot of social studies. My class loves recess time because it is the time when we play and have fun! We also like to do our work!

My brother always help me with my homework and he likes to play with me. When I am in a bad mood he always tries to make me laugh.
