What I am Thankful for

I am Thankful for toys, because I do not get bored, and I can play with my toys. My brother and I can play. This toy is my favorite one Legos, because you can make anything.

I am thankful for my home. I have warm heat so I do not freeze, or get hypothermia. I have a room, this is stuff that I have in my room bed, tv, and toys.

I am thankful for Miss Ellis, She is so nice, fun and funny. Her grandmother is hilarious. Miss Ellis is the funniest in the whole world. She is nice because she tells us funny story about her grandma, like when she lost her dentures, and glasses.

I am thankful for my mom and dad, they take care of me, feed me, and they love me. This is how much I love them !!!!!!!!!!!!!!!!!!!!!!! Finally I am thankful for my friend! They take care of me when I am sick, play with me and sleep over my home.

Lucas Hopson

I am thankful for the home that I have. Also my bed, so I can rest and sleep. Also my house gives me warmth to feel good inside. Also **sents** it gets hot with the wood burning stove in here so I get up and turn my fan on.

The second thing that I am thankful for is that I have food for the winter and that my parents pay for the food that I have. It keeps me energetic. I know that people do not have food and that people are starving and very hungry I want to try to help the people who are starving.

The third thing that I am thankful for is my parents to protect. They try to keep me well. We keep ourselves a family. I love my family because they love me (forever and ever) they will never leave me with a stranger.

Another thing that I am thankful for is the worm cloth that I use in the winter to keep me warm and cozy through the winter. I get extra warm if I dress up with heavy everything like a heavy jacket or heavy boots.

Another thing that I am thankful for is, Mrs. Ellis She teaches me, and she has fun with me. She is a nice teacher. She will never give up on me and I like that she gives us treats.

I love my sister. She is funny and she laughs funny. When I play with she gets tired and she wants to rest and sleep for a while. She is the best sister that I could ever have.

Daniel Aliakseyeu

I am thankful for my school because I learn to get smarter and better. Some people do not have schools. My school has a library and a computer room and a lunch room to eat in.

I am also thankful for my home because some people do not have a home to live in. My mom buys me toys and we all help clean. There is a heater to give us warmth and to warm the house. I have a bedroom and a bathroom. We take good care of our house.

I am thankful for my friends because I have someone to play with. If I get lonely I have friends to have a play date with and someone to talk to.

I am grateful for electricity because it keeps light on when you need it. Some people don't have electricity. We need electricity for computers, light and television. You have to save it if you want to use it that's why we should save energy.

I am thankful for my parents because I have a family to love, care, and hug me. If I did not have parents I would end up in the orphanage.

I am grateful for food because it is important. Breakfast is the most important to eat. I usually buy lunch and eat something Russian for dinner. Some people don't have food. I am glad that I do.

I am grateful for books because I can read. Some people do not have books. If you read successfully you will get great knowledge and go to the best college.

I am thankful for life because great things happen. School, homes, friends, electricity, parents, food, and books are all a part of life that is why I am thankful. I love live.

Sincere Faggins

What I am thankful for.....

I am glad I have a home because if I did not have a home I will be living on the streets, or something like that of I will be living with my uncle or my grandmother.

I am thankful I have clothes and every year I get new clothes and shoes.

I am glad I have food because some kids do not have food. Some kids have food. I eat healthy food.

I am thankful for my mom and dad because when I have a basketball game or a football game they support me I love them so much but my dad lives in Virginia. I still love him anyway. I am grateful for my home and family.

p.s. I love writing

David Mahoney

I am thankful for food because it helps me to grow. Some kids do not get enough food! Food helps me get stronger. It gets me through every day.

I am also thankful for my home because some people do not have a home! While I have heat, some people are freezing! I have a room with blankets and some people sleep in a box on the street.

I am also thankful for clothes because I can stay warm in the winter. Some people do not have any winter clothing. I get to go out and play in the winter. Kids who do not have winter coats cannot enjoy winter weather.

I am also thankful for money because I can buy all of the stuff that I need. Some people do not have much money. They cannot buy what they need to survive. I get everything I need to survive and I am grateful.

I am blessed to have my family because they give me food to help me survive and they give me warmth so I am not cold in the winter. They give me everything I need. They keep me very, very healthy by feeding me well.

I am also blessed for my teachers because my teachers are very considerate. They will help me get a good scholarship to my favorite college. They help me to become smarter. Some kids do not have good teachers. They grow up to be dumb. They are not getting a good education! They cannot get into a college. That is why I am blessed for all of my teachers.
