

Thanksgiving

Do you like Thanksgiving? Are you thankful for anything? Well I am thankful for a home, friends, a family, school, and teachers.

First, I am thankful for a home because many people are homeless and I appreciate the protection of my home. It is also warm and comfortable.

Next, I am thankful for friends because my friends are always joke around with me happy when I'm depressed. They are also fun.

Also, I am thankful for a family because they take care of me and some people don't have families so I'm lucky. My family is the best!

Next , I am thankful for school because school is a place I go to learn and get smart . It is also good when you get good grades.

Finally, I am thankful for teachers because they help me when I have struggles on something. Also, they are fair to every student.

Thanksgiving is not about the turkey or ham it's about thanking and caring for people or things.

Happy Thanksgiving!!!
