Senator Jim Tedisco (R,C,I-REF-Glenville), Assemblyman Robert Smullen and Assemblyman Brian Miller today welcomed Cornell Cooperative Extension 4-H Program high school students from Poland, Dolgeville, and Old Forge to the state Capitol.

"The 4-H Program is a tremendous program that offers young people hands-on learning opportunities that help them grow into caring, contributing and responsible members of

society. It was a pleasure to join my colleagues and meet with some great young people who will be the future leaders of tomorrow," said Senator Tedisco.
