

NEW YORK STATE SENATOR

Joseph E. Robach

Senator Robach Visits Oak Orchard Health Center

JOSEPH E. ROBACH August 8, 2019

| ISSUE: **HEALTH EQUITY, HEALTH CARE**

Oak Orchard Health Center provides health care to 22,000 people in rural communities throughout western New York. The care and services they provide is critically important to the people and families they serve, many of whom would not have access to health care otherwise. Thank you to Mary Ann Pettibon and her team for inviting me out to their facility in Brockport to discuss the important work that they do throughout western New York.
