Out and About Events Around My District This Week

Legislatively Speaking

Earlier this week, I was proud to support comprehensive anti-bullying legislation to help put an end to destructive activity that often interferes with a student's education and emotional well-being.

Bill S4921, which passed the Senate on Wednesday, would help prevent cyber-bullying as well as conventional bullying on school grounds to create safer learning environments for our children.

Unrelenting incidents of cyber-bullying and conventional bullying have taken place throughout the State and among diverse age groups. This type of behavior takes a tremendous emotional toll on victims of bullying. With this new legislation, schools will have the tools to help reduce bullying and increase education about bullying prevention.
