### Have a Happy and Safe Halloween

With just over a week to go until Halloween, I wanted to pass along some safety tips to keep in mind while you are getting your family ready to go trick-or-treating around the neighborhood.

From the Center for Disease Control and Prevention:

- Examine all candy for choking hazards and tampering before your children eat any.
- Make sure your child's costume fits well, and masks provide enough opening as to prevent trips and falls.
- Avoid trick-or-treating alone, walk in groups or with other adults.
- Bring a flashlight and stick to sidewalks rather than walking in the street.
- Check out the forecast ahead of time and dress properly for the weather.

### Local Students Get A Glimpse Into The Construction World

Earlier this week, I had the opportunity to visit with students and exhibitors at the 13th Annual Construction

Career Day. The event presented by UNICON, Unions and Businesses United in Construction, was for students in grades 8 through 12 to learn about careers in the construction industry. Skilled trade professionals demonstrated their crafts in general construction, masonry, plumbing and electrical, carpentry, sheet metal and many other areas. For more photos, follow me on Facebook.
