

NEW YORK STATE SENATOR

Shelley B. Mayer

Community Update: End of Session Recap, Legislation Signed, Upcoming Events

SENATOR SHELLEY B. MAYER June 30, 2023

Dear Friends,

I hope your summer is off to a good start! I've had a busy session in Albany, and am staying busy with much activity here in the district and with new events to highlight. I hope you read and take note, and of course, let me know what you think about the issues raised, and the issues you care about.

I am proud that 22 of the bills that I sponsored passed both the Senate and Assembly this session. These now await the Governor's signing. Importantly, last week the Governor signed one of my most significant bills (protecting New York licensed healthcare practitioners who use telehealth to provide care and prescribe medication abortion to women outside NYS). More about that is below.

It's my honor and my privilege to serve you, my constituents. Do not hesitate to reach out with problems, concerns or your opinions.

As always, if there is anything my office can assist you with, please email me at smayer@nysenate.gov or call (914) 934-5250.

Warm regards,
Shelley B. Mayer
State Senator
37th District
