When Green Acres Mall approached my office for a Women's History Month donation to a woman-run organization, we considered many deserving candidates. My sincerest thank you to Hewlett House, led by the remarkable Geri Barish, for their contributions to our

community. As a cancer survivor herself, Geri's work has been a lifeline for women battling cancer at every stage. Hewlett House provides free services and supports cancer patients in need. Because of the work that Geri does through Hewlett House, women - as well as their families and children - never have to suffer through a diagnosis and treatment alone. I am incredibly proud to help support this cause in any way I can.
