

NEW YORK STATE SENATOR

Daniel G. Stec

Statement from Senator Dan Stec on President Trump's Inaugural Address

DANIEL G. STEC January 20, 2025

| ISSUE: **INAUGURATION DAY**

“I was honored to be on hand in Washington D.C. for the inauguration and address of President Donald J. Trump. It was truly a thrill to be part of history and to hear the President strike the message that our nation needed to hear.

“President Trump presented a vision of America that would unify and restore our status as a global leader. The America First agenda he outlined will ensure our country is based on meritocracy, where anything is possible through hard work and playing by the rules. It’s the hopeful, ideal of America we all believe in.

“After his inaugural address, I’m more certain than ever that our nation is about to enter what President Trump referred to as a new Golden Age. I can’t wait to get to work to help make the President’s goals for this great nation a reality.”
