

## 2025-K47

Assembly Resolution No. 47

BY: M. of A. DeStefano

MEMORIALIZING Governor Kathy Hochul to proclaim  
January 2025, as Thyroid Disease Awareness Month in  
the State of New York

WHEREAS, It is the custom of this Legislative Body to recognize  
official months that are set aside to increase awareness of serious  
conditions that affect the lives of citizens of New York State; and

WHEREAS, Thyroid Disease affecting an estimated 20 million Americans  
in the United States, 60 percent of the people with Thyroid Disease  
don't know they have a problem; the majority of people with this disease  
have yet to be diagnosed; and

WHEREAS, Thyroid Disease is any dysfunction of the thyroid, the  
butterfly-shaped gland at the base of the neck, it encompasses a wide  
array of disorders, such as thyroid nodules, hypothyroidism,  
hyperthyroidism, Goiter, Graves' disease, Hashimoto's thyroiditis, and  
various thyroid cancers; and

WHEREAS, The disease can develop in anyone, but tends to occur about  
three times as often in women as in men; women between the ages of 35  
and 65 are at highest risk of getting thyroid cancer, followed by older  
people (both men and women); thyroid cancer occurs more frequently in  
Whites and Asians than in African Americans; and

WHEREAS, Each year, approximately 1,000 men and 3,100 women are diagnosed with thyroid cancer in New York State; of that number, about 50 men and 70 women die from this disease each year; and

WHEREAS, Between 1975 and 2013, the amount of thyroid cancer cases diagnosed each year has more than tripled; cases of advanced forms of the disease rose by nearly three percent each year while deaths rose by about one percent each year; and

WHEREAS, At this time, the causes of thyroid cancer and disorders are not well understood, however, scientists agree that certain factors increase a person's risk of developing these diseases; these risk factors include: exposure to high levels of ionizing radiation, exposure to radioactive iodine, and it is more common among people with certain inherited diseases including familial adenomatous polyposis; and

WHEREAS, To reduce the risk of Thyroid Disease, doctors recommend partaking in regular exercise, stop smoking, and perform regular neck checks; and

WHEREAS, Through public awareness, this Legislative Body seeks to minimize the devastating effects of thyroid disease among all the citizens of the State of New York; now, therefore, be it

RESOLVED, That this Legislative Body pause in its deliberations to memorialize Governor Kathy Hochul to proclaim January 2025, Thyroid Disease Awareness Month in the State of New York; and be it further

RESOLVED, That a copy of this Resolution, suitably engrossed, be transmitted to The Honorable Kathy Hochul, Governor of the State of New York.
