Senator O'Mara serves as the Ranking Member on the Senate Finance Committee.

Everything's being done with smoke and mirrors on this whole thing. There's no transparency, there's no forthrightness with the public on what this is going to cost them.

Albany, N.Y., January 28—State Senator Tom O'Mara (R,C--Big Flats), Ranking Member on the Senate Finance Committee, joined numerous legislative colleagues at today's joint Senate-Assembly hearing on Governor Kathy Hochul's proposed 2025-2026 New York State budget.

Tuesday's forum focused on the governor's proposals for Environmental Conservation and Energy.

At today's hearing, Senator O'Mara solicited testimony from the heads of several key state agencies - New York State Energy Research and Development Authority (NYSERDA), Department of Environmental Conservation (DEC), Public Service Commission (PSC) and the New York Power Authority -- implementing mandates and other actions to achieve the goals set forth under the "Community Leadership and Community Protection Act of 2019" (CLCPA).

Senator O'Mara continued to be critical of the lack of a detailed and transparent cost-benefit analysis of the state's plans, raising concerns over skyrocketing utility costs for ratepayers and other widespread fears that New York's current climate

agenda and energy mandates ignore affordability, feasibility, and reliability, and aren't realistic under the current timeline.

“These massive rate increases are not affordable,” Senator O’Mara said. “We haven’t even touched the tip of the iceberg. When the public knows, you’re going to hear about it. Everything’s being done with smoke and mirrors on this whole thing. There’s no transparency, there’s no forthrightness with the public on what this is going to cost them.”
