NYS Senator Kristen Gonzalez's Response to NYU Langone's Decision to Halt Gender-Affirming Care for Youth

KRISTEN GONZALEZ February 1, 2025

NYU Langone's decision to pause gender-affirming care for patients under 19 years of age sets a dangerous precedent of capitulation before due process. As our State Attorney General and others work to undo President Trump's hateful and discriminatory executive order, I sincerely hope NYU will reverse course and resume care to patients and do their part to keep New York a safe haven for transgender youth and their families.
