

NEW YORK STATE SENATOR

Jeffrey D. Klein

Senator Klein Urges Women To Protect Themselves Against Cervical Cancer

JEFFREY D. KLEIN January 22, 2007

NY-State Senator Jeff Klein (D-Bronx/Westchester) today encouraged every woman to take advantage of Pap smear screening which tests for cancer of the cervix. January is Cervical Cancer Screening Month.

By age 50, at least 80 percent of American women will have acquired a strain of the HPV virus. Since the virus typically doesn't present symptoms women are often unaware that they are infected. In some cases the body's immune system clears the infection but certain

types of HPV can lead to cervical cancer.
