

NEW YORK STATE SENATOR

Charles J. Fuschillo Jr.

Storm Preparedness Information

CHARLES J. FUSCHILLO JR. September 2, 2010

The current track of Hurricane Earl has resulted in a tropical storm watch for Nassau County and a tropical storm warning for Suffolk County.

Here are some preparations you may want to take in case heavy rains and wind affect our area:

- * Make sure flashlights and radios have batteries. Have extra batteries on hand as well.
- * Make sure your car has gas. Gas pumps may not operate if power goes down.
- * Have cash on hand. ATMs and credit or debit card machines may not be functioning if power is lost.
- * Have a three day supply of water and non-perishable, easy to prepare food (1 gallon of water per person, per day)
- * Have copies of important papers readily available, such as your insurance policies.
- * Have a camera to take pictures of any damage.
- * Store or secure outside items such as patio furniture or chairs, to keep them from blowing away and causing damage.

IMPORTANT PHONE NUMBERS (PRINT OUT AND KEEP HANDY)

- * Nassau County Red Cross: 516-747-3500
- * Nassau County Office of Emergency Management: 516-573-0636
