to do so very soon. During this time of year, protecting your identity is especially important with all the shopping that is done in stores and on-line.

Here are some measures you can take to protect your identity:

- Guard your computer password and use secure lines to transmit financial information over the internet.
- Don't provide information to lenders or sales clerks that is not required.
- Protect your mail and trash from theft by tearing or shredding documents that contain personal information

Identity theft is among the fastest growing consumer crimes in the country. For more information on protecting yourself this holiday season, visit my website at robach.nysenate.gov.
