

NEW YORK STATE SENATOR

Dean G. Skelos

Statement by Senate Majority Leader Dean Skelos

DEAN G. SKELOS March 1, 2011

| ISSUE: **ELECTIONS**

I was pleased to meet with Mayor Koch today on the issue of independent redistricting. I expressed to him my concerns about the Koch-endorsed bill that would weight the redistricting process in favor of Democrats by a six to two margin.

Several different redistricting reform bills have been proposed. We are still reviewing constitutional concerns that we have with the bill submitted by the Governor. It is our intention to pursue a redistricting reform measure that will meet the NY Uprising pledge.

As the State Constitution gives the Legislature the sole authority to draw district lines, the strongest plan would amend the constitution to establish a process that is truly fair, bipartisan and constitutionally sound. This process could have been started earlier. However, when Senate Democrats were in the Majority, they chose not to act on any redistricting reform legislation at all.
