

NEW YORK STATE SENATOR

Dean G. Skelos

Senator Dean Skelos Welcomes the Arrival of Steel From the World Trade Center to West Hempstead

Dean G. Skelos

April 20, 2012

I was pleased to partner with Assemblyman Ed Ra and Rosalie Norton of the West Hempstead Community Support & Civic Association in working to bring a piece of steel from the World Trade Center to West Hempstead. With twelve lives lost on September 11th from the West Hempstead community, it is only fitting that a memorable and lasting tribute be built and this piece of steel will be the centerpiece of this memorial when it is built.
