

NEW YORK STATE SENATOR

Kenneth P. LaValle

## Senator LaValle Announces Local Job Creation Projects to Receive State Funding

Kenneth P. LaValle

December 19, 2012

ISSUE:

- [Economic Development](#)

New York State Senator Kenneth P. LaValle today announced that job creation projects in the First Senate District will receive critically important state funds through the second round of Regional Economic Development Council awards.

“These projects will strengthen our economy and help create and retain jobs,” Senator LaValle said.

The following job creation projects in the First Senate District will receive funding from the second round of the Regional Economic Development Council program:

Applicant	Project Name	Description	Amount

Town of East Hampton	Accabonac Harbor Storm Water Remediation	The Town of East Hampton will acquire materials to implement storm water abatement projects in Accabonac Harbor, a waterbody on the New York State 303(d) impaired waterbodies list. The project will allow the Town to comply with the NYS DEC MS4 program.	\$150,000
East End Arts	Building Bridges: Long Island	East End Arts will launch 'Bridges LI', a project whose goals are capacity building of management, program and entrepreneurial efforts of arts organizations and artists on the East End of Long Island, promoting cultural entrepreneurship in regional economic development, and creating an effective arts services delivery network. Activities will include assisting four anchor organizations, publishing a Community Resource Map, professional development for artists, and advocacy for bringing the cultural community into regional and local economic planning.	\$90,000

Village of Sag Harbor	Construction of Havens Beach Storm Water Improvements	The Village of Sag Harbor will retrofit storm water drainage infrastructure that currently delivers untreated storm water runoff directly offshore of Havens Beach – a Village beach open to the general public – through a drainage ditch that bisects the beach and results in frequent beach closures after heavy rain.	\$146,9
Town of Riverhead	Downtown Riverhead Artist Housing	The Town of Riverhead will renovate eight buildings in downtown Riverhead. The award will be used for interior and exterior renovations of up to 45 residential units and six commercial units.	\$250,0
Village of Greenport	Eastern Greenport Sewer Extension Feasibility Study	The Village of Greenport will prepare an engineering report to explore the extension of sewer service in Eastern Greenport.	\$25,50
Village of Greenport	Economic Development Assessment	1. The project will include the analysis of the effect of the Greenport Tall Ships Festival and other similar potential events that could be undertaken to help businesses and residents preserve the Village's maritime culture and improve its overall economic well being.	\$45,00

HF Corwin and Son Inc	Hatchery and Farm Electrical Distribution	HF Corwin and Son, the only remaining duck farm on Long Island, will construct a state-of the art duck hatchery in order to comply with new Food and Drug Administration regulations.	\$250,000
Inlet Seafood Inc	Improving Commercial Waterfront Infrastructure Montauk Inlet Seafood	Infrastructure improvements to wholesale fish processing and packing facility will support the commercial fishing industry in Montauk.	\$227,500
Atlantic Industrial Technologies, Inc.	ISO 9000 Implementation Training	Atlantic Industrial Technologies, Inc. of Shirley in Suffolk County will train 40 workers in ISO9001 quality management systems standards Implementation and Support.	\$85,350
Oldcastle APG, Inc.	Lean Manufacturing and Operations Training	Oldcastle APG, Inc. of Middle Island in Suffolk County will train 23 workers in lean manufacturing, concrete manufacturing quality and production standards, welding and efficiency.	\$49,950
Shinnecock Pools, Inc.	Lean Manufacturing Training	Shinnecock Pools, Inc. of Southampton in Suffolk County will train 10 workers in lean manufacturing, including lean overview, lean service, lean office and lean strategy.	\$23,500

ATK Test Research Facility Ronkonkoma New York	MAGLEV2000 System Construction Project	Alliant Techsystems Operations, LLC will manufacture and test a MAGLEV prototype for use on existing rail tracks. Alliant Techsystems Operations will invest \$18.9 million and create 10 jobs.	\$500,0
Village of Greenport	Mitchell Park Bulkhead Feasibility Study	The Village of Greenport will prepare a feasibility study to determine the best options for replacing the deteriorated bulkhead at the Village's Mitchell Park and Marina. This study will be used to support the development of plans and specifications for bidding, projected costs, required permits, and a consideration of potential funding and financing options for construction.	\$92,63

NYC Department of Transportation	NYC Porous Pavement Prototype Testing and Evaluation	NYC DOT will work with agency partners to design, construct, and monitor five permeable pavement technologies in the Flushing Bay priority watershed in Queens. This project will provide valuable performance data to identify the pervious pavement type that is most effective in reducing stormwater runoff volume and velocity, the most cost-effective to implement on a larger scale within NYC's street reconstruction budget, and the most operationally effective.	\$1,200,0
Village of Port Jefferson	Port Jefferson Pedestrian Trail Enhancements and Waterfront Parking Reconfiguration	The Village of Port Jefferson will improve two pedestrian walkways connecting Port Jefferson's downtown commercial district on West Broadway, the upper historic district on East Main Street and West Broadway across from the nearby Harbor complex, and restore the Baker Alley easement on East Main Street.	\$106,5
Rolling Frito-Lay Sales, LP	Route Sales and Customer Service Training	Rolling Frito-Lay Sales, LP of 7 of the state's regions will train 500 workers in route sales, customer service, software/hardware, and distribution process.	\$100,0

Satur Farms LLC	Satur Farms Expansion	Satur Farms will acquire machinery and equipment for expansion of its vegetable processing and packing line.	\$120,0
Town of Southold	Southold Watershed and Sewershed Mapping	The Town of Southold will implement the final phase of a multi-component storm water infrastructure identification and mapping project that will include the mapping and modeling of all watersheds and subwatersheds within the Town. Sewersheds would also be mapped to determine contributions and conveyances to the MS4 system in an effort to enable the Town to develop watershed management plans for each watershed in the future.	\$67,91
East End Tourism Alliance	Thematic Tourism Project	East End Tourism Alliance generates increased awareness and demand for thematic tourism opportunities that emphasize locally grown farm, vineyard, and sustainable seafood along with other East End attractions.	\$335,0

Thomas Moran Trust Inc	Thomas Moran Studio House Restoration	The Thomas Moran Trust Inc. will stabilize The Studio. Built in 1884 and one of the country's earliest National Historic Landmarks, The Studio comprises the artist's studio, residential quarters, gardens and outbuildings. The larger project will result in a complete restoration of the site for reuse as an historic house and museum. The project will include stabilization of the foundation, and all floor, wall, and roof framing will be strengthened throughout.	\$477,5
Montauk East LP	Transformative Commercial Fisheries Infrastructure Project Montauk East LP	Montauk East will undertake infrastructure improvements to its wholesale fish processing and packing facility to support the commercial fishing industry in Montauk.	\$120,0
Village of Greenport	Village of Greenport Water Quality Improvements	The Village of Greenport will implement the Fifth Street Park Project and Manor Place Project. These projects will transform the ends of existing roadways to incorporate bioretention areas and porous pavement to treat roadway runoff. These projects will demonstrate green stormwater practices that improve and protect water quality.	\$287,8

Village of Greenport	Western Greenport Sewer Extension Engineering Study	The Village of Greenport will prepare an engineering report to determine the feasibility of extending sewer service in Western Greenport to areas west of 6th Street and south of Main Road.	\$23,300
CV Village at Coram LLC	Wincoram Commons	CV Village at Coram LLC will undertake a mixed-use project involving rental housing and retail, transitioning a 17-acre vacant and blighted property in the Coram Hamlet Center West into a smart-growth, pedestrian-oriented, vibrant community.	\$1,000,000

"I have been proud to work with people from every part of our area including leaders in business, education, local governments, economic development and planning and others, to develop a list of job creation projects that achieve our goals of creating jobs and building a strong foundation for future growth," Senator LaValle said.

Governor Andrew M. Cuomo said, "For the second year in a row, the Regional Councils have been on the forefront of rebuilding New York State's economy. For too many years, top-down economic development policies have failed communities across the state and not truly invested in the unique resources and strengths of each of New York's regions. Now a new, bottom-up approach is in place that brings local communities together to chart their own economic destiny. The second round of Regional Economic Development Council awards will deliver funding for critical projects and investments in communities across our state, helping put New Yorkers back to work and rebuilding our economy."

Statewide, a total of \$738 million was awarded for 725 economic development projects in every region of New York State.
