

NEW YORK STATE SENATOR

Martin J. Golden

Important Message from the American Italian Cancer Foundation

MARTIN J. GOLDEN January 24, 2013

Happy Valentine's Day

Love yourself, love your life.

Early detection saves lives.

This February we want to help NYC women celebrate the month of love with a special no-cost gift. The American-Italian Cancer Foundation (AICF) will be providing no-cost digital mammograms, clinical breast exams, and educational materials to medically underserved women on its Care Clinic in Brooklyn, the Bronx, Manhattan, and Queens on Wednesdays through Sundays. We serve women who are at least 40 years old, live in NYC, and have not had a mammogram within the past 12 months.

To make an appointment for a no-cost breast cancer screening in your neighborhood, call 1-877-628-9090.
