

NEW YORK STATE SENATOR

Martin J. Golden

Bike Path Maintenance Update

MARTIN J. GOLDEN August 14, 2013

Senator Golden recently met with officials from the Department of Transportation Arterial Maintenance Division, as well as officials with the Parks Department, regarding maintenance issues related to the tree pits, overgrown weeds and grass, along the bike path in and around the Bridges that cross the Belt Parkway.

Please know that today, we have been advised that crews were assigned to complete work today from 65th Street to 92nd Street, and it is the plan that a second crew will be dispatch and assigned, to clean up the bike path area from 92nd Street through Bay Parkway.
